PROFESSIONAL SUMMARY

Results-driven Software Engineer and Web3 Developer with 2 years of hands-on experience designing, building, and deploying modern web and mobile applications. Skilled across full-stack ecosystems, blockchain application layers, and native API systems. Adept at translating complex product requirements into scalable, clean solutions with an unwavering commitment to exceptional user experiences and robust software architecture.

PROFESSIONAL EXPERIENCE

Junior Frontend Engineer

2025 – Present

SammyJay Software Solutions Ltd

- Develop and maintain highly responsive web applications using modern engineering frameworks and industry-standard clean architectural patterns.
- Collaborate cross-functionally with UI/UX designers, backend systems engineers, and stakeholders to deliver fluid, user-centric software products.
- Translate high-fidelity wireframes into pixel-perfect, secure, and easily maintainable frontend codebases.
- Integrate client-side applications smoothly with complex RESTful APIs, core databases, and third-party web protocols.
- Lead critical code quality efforts including performance optimization, rigorous cross-platform debugging, and structured feature rollouts.

Freelance Software Developer

2024 – Present

Independent Practice

- Architect custom end-to-end web and mobile solutions tailored directly to distinct client business specifications.
- Engineered intuitive mobile applications leveraging cross-platform environments and robust native integration practices.
- Implement reliable backend services, optimized custom API architectures, and structured relational database solutions.
- Deliver multi-phased production milestones within precise timelines while continuously enforcing strict version control and test-driven standards.

SKILLS & COMPETENCIES

LANGUAGES

JavaScript, TypeScript, Python, Dart

WEB & FRONTEND

React, HTML5, CSS3, Modern UI Layouts

MOBILE FRAMEWORKS

React Native (Expo), Flutter, Cross-Platform Architecture

BACKEND & APIS

Node.js, Express.js, FastAPI, RESTful Design

WEB3 & BLOCKCHAIN

Solidity, Smart Contract Interaction, Web3 dApp Integration

DATABASES

PostgreSQL, MySQL

TOOLS & ARCHITECTURE

Git, GitHub, Version Control, Systems Architecture, API Lifecycles

EDUCATION

B.Eng. Software Engineering

Federal University of Technology, Owerri (FUTO)

Currently Enrolled (200 Level)

PERSONAL INTERESTS

- Software Development
- Blockchain Systems
- Open Source Technologies
- Community Building
- Problem Solving
- Technology Research
- Mobile & Web Development
